### Vintage

This year, all the conditions point to a very great vintage year of 2015!

The winter was not particularly harsh, and at the start of spring we benefited from a higher level of precipitation than in 2014. The good weather after Easter prompted a growth spurt. Flowering began in June, in favorable climatic conditions. The heat of June and July promoted vine growth, but soon a dry period set in. The high temperatures (over 40 C at the beginning of July!) were accompanied by intemperate weather episodes, fortunately, the rains of mid-August arrived in a timely fashion. The vines reacted impressively with a renewal of growth and an accelerated ripening of the grapes. At the end of August, the vines displayed perfect health.

The climatic conditions for the commencement of harvesting are ideal. The grapes are in absolutely perfect health. In addition, the sunny days and chillier nights have helped preserve the freshness of the grapes.
